reading proficiency data sources : 2009 year

math proficiency data sources : 2009 year

- KEY** **blank cells:** Either the group is less than 30 or the category does not apply to this school.
- yes :** The group made the reading (or math) target, and participation rate is 95%.
- yes *:** The percent standard or above is below the target but above the criterion percent when the hypothesis test (at a 99% level of confidence) is applied.
- yes 2:** This year's participation was below 95%, but after merging the data across 2 years, was at or above, so met participation goal.
- yes *, 2 :** The percent standard or above is below the target but above the criterion percent when a hypothesis test (at the 99% level of confidence) is applied. This year's participation was below 95%, but the average across 2 years was at or above, so met participation goal.
- yes 3 :** This year's participation was below 95%, but the average across 3 years was at or above, so met the participation goal.
- yes *, 3 :** The percent standard or above is below the target but above the criterion percent when the hypothesis test (at the 99% level of confidence) is applied. This year's participation was below 95%, but the average across 3 years was at or above, so met participation goal.
- yes 4 :** This code is not currently in use for AYP.
- yes nr:** New or reconfigured schools and districts automatically make AYP for 1 year.
- yes a:** Status changed through appeal
- no** The group did not make AYP as it did not meet either the performance and/or the participation goals. The percent standard or above is below the 2008 target goal OR below the lower bound of the hypothesis test OR the group did not make Safe Harbor OR participation rate was below 95% (even if averaged across years).
- yes 9** The group met requirements since no students had valid tests
- yes 9,3** The group met requirements since no students had valid tests and this year's participation was below 95%, but after merging the data across 3 years, was at or above, so met participation goal.

- yes 5 :** A single student in a building with fewer than 20 students cannot make the building fail participation goal.
- yes *,5 :** A single student in a building with fewer than 20 students cannot make the building fail participation goal when the hypothesis test (at a 99% level of confidence) is applied.
- yes 6 :** The group made Safe Harbor through the hypothesis test at the 75% level of confidence.
- yes 6,2 :** The group made Safe Harbor through the hypothesis test at the 75% level of confidence, and was at or above, so met participation goal
- yes 6,3 :** The group made Safe Harbor through the hypothesis test at the 75% level of confidence, and was at or above, so met the participation goal.
- yes 6,5 :** The group made Safe Harbor through the hypothesis test at the 75% level of confidence, and was at or above, so met participation goal.
- yes 7 :** The group made Safe Harbor .
- yes 7,2 :** The group made Safe Harbor , and this year's participation was below 95%, but after merging the data across 2 years, was at or above, so met participation goal.
- yes 7,3 :** The group made Safe Harbor , and this year's participation was below 95%, but the average across 2 years was at or above, so met participation goal.
- yes 7,5 :** The group made Safe Harbor , and a single student in a building with fewer than 20 students cannot make the building fail participation goal.
- yes 8** The group met requirements since no testable children were in the All Students group.
- yes 9,2** The group met requirements since no students had valid tests and this year's participation was below 95%, but after merging the data across 2 years, was at or above, so met participation goal.
- yes 9,5** The group met requirements since no students had valid tests and this year's participation was below 95%, but after merging the data across 3 years, was at or above, so met participation goal.
